

**SNOWMASS DISCOVERY | VISION**

*Treasures of the ancient past  
teaching us stewardship for the future.*

**SNOWMASS DISCOVERY | MISSION**

*To inspire exploration of Snowmass Village  
by creating engaging experiences  
that celebrate the finest alpine Ice Age discovery  
in North America.*

**L**ONG AGO huge Ice Age mammoths and mastodons, and ancient bison, horses, and camels, roamed the forests and grasslands of the Rocky Mountains. Today you can explore those same forests and grasslands that were home to the Ice Age beasts.

Recently, during excavation for a reservoir, more than 6,000 big fossil bones were unearthed right in Snowmass Village, revealing an amazing world of very large wildlife species, massive advancing and retreating glaciers, and rapidly shifting climate. Some of the most interesting bones are here, where you can see them being carefully preserved for science and education.

Why are the Ice Age animals gone if the forests and grasslands where they thrived are still here? What will become of all those big bones? Where exactly were they found...and how?

*Come explore the treasures of the past and get rewarded  
with a clear view into the future.*

## **SNOWMASS DISCOVERY | GOALS**

*Build a solid, enduring organization with  
a focused, consistent, and active purpose.  
Deliver compelling new programs in 2014  
that define the Snowmass experience  
as engaging and transformative ecological learning.*

**S** **SNOWMASS DISCOVERY** will accomplish our goals by blending the fascinating science emerging from the discovery of a lost, ancient ecosystem, with experiences that change lives and contribute to society and the environment.

**SNOWMASS DISCOVERY** will assure the success of our goals by engaging the best advisors. We will actively collaborate with the Denver Museum of Nature and Science, Aspen Center for Environmental Studies, Town of Snowmass Village, Aspen Skiing Company, and Colorado Mountain College.
